

# Outlook on 8K TV

Display Supply Chain Consultants

Insight Media

February, 2018

## Table of Contents

|   |    |
|---|----|
| Executive Summary .....   | 5  |
| Analyzing the 8K TV Opportunity .....                                     | 6  |
| Introduction.....   | 6  |
| The World in 2020 .....   | 7  |
| Discussion.....   | 10 |
| 2020 Olympics as a Driver for Tech Development and Commercialization..... | 12 |
| Discussion.....   | 13 |
| Evaluation of the 8K Production Equipment.....                            | 14 |
| Overview.....   | 14 |
| Cameras.....  | 15 |
| Camera Lenses .....   | 19 |
| Color Grading/Editing .....   | 20 |
| Encoders.....   | 20 |
| Players.....  | 21 |
| Recorders/Players .....   | 22 |
| Converters.....   | 23 |
| Other Gear.....   | 23 |
| Evaluation of the 8K Distribution Systems .....                           | 24 |
| Satellite .....   | 24 |
| Over the Air .....  | 25 |
| Cable and Telco .....   | 26 |
| Other Options.....  | 26 |
| Tuners/Demodulators.....  | 27 |
| Summary of Expectations.....  | 28 |
| 8K Connectivity .....   | 28 |
| HDMI.....   | 29 |
| DisplayPort .....   | 31 |
| SuperMHL .....  | 32 |
| Thunderbolt.....  | 34 |
| USB Type-C.....   | 34 |
| U-SDI.....  | 35 |

|   |    |
|---|----|
| Panasonic Hybrid Cable.....                   | 36 |
| V-by-One .....                                | 36 |
| Supply Push for 8K TV.....                    | 37 |
| Cut Efficiency .....                          | 37 |
| Capacity Growth for Large-Screen TV.....      | 38 |
| Display Panel Factors to Enable 8K .....      | 40 |
| Resolution.....                               | 40 |
| Backplane Technology.....                     | 41 |
| Backlight.....                                | 41 |
| Driver ICs and Module Components .....        | 42 |
| Yield.....                                    | 42 |
| Achieving UHD Features Beyond Resolution..... | 43 |
| OLED vs. LCD .....                            | 45 |
| Cost Summary LCD vs. OLED .....               | 46 |
| 8K Product Plans.....                         | 48 |
| TV Design Impact to Enable 8K.....            | 48 |
| Video Processing .....                        | 48 |
| 8K Product Introductions .....                | 50 |
| 8K TV Forecast.....                           | 51 |
| Large-Screen TV Forecast .....                | 51 |
| 8K Penetration .....                          | 52 |
| 8K by Size.....                               | 54 |
| 8K by Region .....                            | 54 |

## **Table of Figures**

|  |    |
|--|----|
| Figure 1: Super Hi-Vision Spec Summary .....           | 6  |
| Figure 2: Super Hi-Vision Audio Spec.....              | 7  |
| Figure 3: Hitachi 8K Camera Specs.....                 | 15 |
| Figure 4: De-Bayering Options.....                     | 16 |
| Figure 5: AstroDesign 8K Camera .....                  | 17 |
| Figure 6: Ikegami 8K Camera.....                       | 17 |
| Figure 7: Sony F65 Sensor Pattern .....                | 18 |
| Figure 8: RED 8K Weapon Camera .....                   | 19 |
| Figure 9: Spin Digital 2x2 8K Display at NAB 2017..... | 21 |

|   |    |
|---|----|
| Figure 10: AstroDesign 8K Recorder .....  | 22 |
| Figure 11: HDMI 2.1 Significantly Increases Bandwidth .....                     | 30 |
| Figure 12: SuperMHL Connector .....   | 32 |
| Figure 13: USB 3 Pin Out.....   | 34 |
| Figure 14: U-SDI Connector.....   | 35 |
| Figure 15: Panasonic Hybrid Cable Concept.....                                  | 36 |
| Figure 16: Cut Efficiency for Large TV Panels.....                              | 38 |
| Figure 17: Display Industry Capacity by Gen Size .....                          | 39 |
| Figure 18: Screen Resolution vs. Screen Size for TV .....                       | 40 |
| Figure 19: Display Capacity for TV by Technology and Backplane.....             | 41 |
| Figure 20: Aperture Ratio Decreases with Higher Resolution .....                | 42 |
| Figure 21: Color Standards .....  | 43 |
| Figure 22: Quantum Dot Enhancement Film (QDEF).....                             | 44 |
| Figure 23: LGD 88” 8K OLED TV Panel .....                                       | 45 |
| Figure 24: Cost Comparison 4K vs. 8K for 65” LCD .....                          | 46 |
| Figure 25: Cost Comparison 4K vs. 8K for 65” OLED.....                          | 47 |
| Figure 26: Samsung AI Upscaling Technology.....                                 | 49 |
| Figure 27: Samsung AI Upscaling Claims.....                                     | 50 |
| Figure 28: Forecast for 60”+ TV, 2016-2022 .....                                | 51 |
| Figure 29: 8K as a % of Total LCD TV Panel Shipments, Forecast 2017-2022.....   | 52 |
| Figure 30: 8K as a % of Total OLED TV Panel Shipments, Forecast 2017-2022 ..... | 53 |
| Figure 31: Forecast of Worldwide 8K TV Sales by Screen Size.....                | 54 |
| Figure 32: Forecast of Worldwide 8K TV Sales by Region.....                     | 55 |

## Table of Tables

|  |    |
|--|----|
| Table 1: Summary of 8K Distribution Expectations by 2020.....                            | 28 |
| Table 2: Summary of data rates for various 8K Signal Formats and Connectors Solutions .. | 29 |
| Table 3: V-by-One and LVDS Comparison Table .....  | 37 |
| Table 4: Gen 10+ Capacity, # of Substrates per year in thousands .....                   | 39 |
| Table 5: Panel Maker 8K Product Plans .....  | 48 |
